Summary

Product Designer with 3+ years of full-time experience building products across SaaS, LegalTech, MarTech, EdTech, HealthTech and HRTech. Currently pursuing a Master's in User Experience specializing in AI-driven UX. Proven ability to translate complex workflows into scalable, business-aligned product experiences. Known for improving activation, retention, conversion, and execution speed by integrating AI across research, ideation, prototyping, and design systems.

Experience

Freelance Product Designer

March 2025 – Present

- Partnered with **3 SaaS companies** to design MVPs and core workflows aligned with revenue, adoption, and scale.
- Reduced discovery and decision cycles by **30–40%** using AI-assisted research synthesis and rapid ideation.
- Designed onboarding and core user journeys that improved early activation and reduced drop-offs in complex workflows.
- Built scalable design systems that supported faster feature launches and reduced design-to-development rework by **~25%**.

Awsense.ai

Senior UI & UX Designer

Jul 2024 – May 2025

- Led UX for a pre-launch AI platform addressing complex legal workflows and data-heavy use cases.
- Translated user and stakeholder insights into **100% of core product flows**, directly shaping product positioning and roadmap decisions.
- Designed end-to-end journeys that reduced cognitive load and improved usability for high-stakes, expert users.
- Established a design system that improved consistency and accelerated the transition from concept to development.

SkillGigs

Senior UI & UX Designer

Aug 2023 – May 2024

- Led design strategy for platform initiatives impacting **10K+ users**, supporting growth, retention, and marketplace liquidity.
- Optimized business-critical flows tied to hiring, onboarding, and talent discovery, contributing to improved conversion.
- Reduced stakeholder decision time by **~30%** through advanced, data-informed prototyping.
- Mentored **3+ designers**, increasing delivery velocity and cross-team alignment.

UI & UX Designer

Apr 2022 – Aug 2023

- Delivered a platform redesign that improved engagement and conversion across recruiter and talent experiences.

- Collaborated with sales and marketing to refine journeys influencing lead generation and customer activation.

Junior UI & UX Designer

Sep 2021 – Apr 2022

- Designed UI for new & existing features that increased feature adoption and improved user satisfaction.
- Supported research initiatives informing roadmap decisions.
